WOMEN IN TRANSPORT

S&W SCHOOLS

Highlights

On-campus residential program in the heart of the **Motor Valley**, focused on **automotive** and **high-performance vehicles** and designed for **female engineering students**, combining **academic lectures, industry insights, company visits** and **networking** to promote **gender diversity** in the automotive sector.

Participants

The school has a limited number of places, which varies from year to year, but is usually around 20.

Places will be allocated on the basis of the evaluation of the candidates.

Fee

The participation fee is €900. Fee Includes accommodation in Modena for the full two-week program; local transfers for scheduled activities and partner company visits; academic and cultural activities outlined in the final program; a welcome kit and participation in the final round table and farewell aperitif and medical insurance and compulsory university insurance.

When

2-week program, from June 29 to July 10, 2026.

Where

On site at the Department of Engineering Enzo Ferrari (Modena Campus), in the Emilia Romagna region of Italy.
