FUTURE OF
AUTOMOTIVE FOR
INTELLIGENT MOBILITY

Summer School

Future of Automotive for Intelligent Mobility

20–31 July 2026

Application Deadline: 1 June 2026

Limited places available (approx. 30 participants)

A **two-week intensive program** combining lectures, workshops and company visits, focused on the technologies shaping the future of automotive mobility.

Participants will explore **advances in materials, manufacturing, powertrains, energy storage, sustainable fuels, sensors, connectivity and artificial intelligence**, engaging directly with researchers and industry experts from the Motor Valley.

Hosted at the **Department of Industrial Engineering** – University of Bologna – and at MUNER partner institutions and companies, the Summer School is **aimed at Master's and PhD students and young researchers in automotive and related engineering fields**.

The initiative, promoted by MUNER - Motor Valley University of Emilia-Romagna to foster advanced skills and professional connections in intelligent and sustainable mobility, is part of the **MUSE – Motorvehicle University Skills Empowerment project**, co-funded by the **Emilia-Romagna Region** and FSE+ 2021/2027.
